Trends	Jacquard Products	Notes
Natural Dyeing 	<ul style="list-style-type: none"> • Cochineal 	Natural dyeing and its associated techniques are enjoying their time in the spotlight. Cochineal, a dye derived from insects that are organically farmed in a small co-op outside Lima, Peru, produces a range of reds, scarlets, fuchsias and purples.
	<ul style="list-style-type: none"> • Alum 	Alum is a mordant used to fix Cochineal and other natural dyes.
	<ul style="list-style-type: none"> • Indigo • Indigo Tie Dye Kit 	Indigo dyeing produces beautiful blue hues and is commonly used in shibori and dip-dyeing processes. Jacquard offers pre-reduced indigo powder as well as an Indigo Tie Dye Kit that contains synthesized indigo- molecularly identical to the naturally occurring dye.
Overdyeing 	<ul style="list-style-type: none"> • iDye Natural • iDye Poly 	Overdyeing is a simple and chic way to revive a faded garment, or upgrade apparel to a new shade. “Upcycling,” as it is often called, is super trendy right now. iDye’s easy-to-use packet dissolves in the washing machine or dye bath, making clean up a cinch. iDye for Natural fabric is perfect for cotton, linen, rayon, and silk. iDye Poly is ideal for polyester, nylon, plastics, and more.
Tie Dye 	<ul style="list-style-type: none"> • Tie Dye Kits • Jewel Tones Tie Dye Kits • Procion MX • Soda Ash 	Tie Dye is enjoying a renaissance, with sophisticated monochrome looks and jewel-toned palettes trending all over the world. Tie Dye aficionados can use a ready-made tie dye kit that has everything they need, or use the components (Procion MX and Soda Ash) with rubber bands, gloves, and imagination, to make something entirely unique.
Marbling 	<ul style="list-style-type: none"> • Marbling Color • Marbling Kit 	Marbling motifs are trending up. Marbling uses paint that floats on a liquid surface to transfer exquisite colors and designs onto paper, fabric, and other porous and semi-porous surfaces. The Marbling Kit has all the supplies you’ll need to get started, whether you’re marbling for the first or hundredth time. Jacquard’s Marbling Colors are available as open stock, meaning the sky is the limit in terms of color combinations.
	<ul style="list-style-type: none"> • Alum • Carrageenan • Synthetic Gall 	Alum, Carrageenan, and Synthetic Gall are used in the marbling process to prepare the surface and marbling base. Included in the Marbling Kit, these are also available as open stock items.
Calligraphy 	<ul style="list-style-type: none"> • Pearl Ex Powdered Pigments • Gum Arabic (powdered) 	A multitude of metallic and pearlescent colors of Pearl Ex Powdered Pigments are available. Mix Pearl Ex, Gum Arabic and water to make custom inks for hand lettering. Perfect for stationary, invitations, scrapbooks, signage and much more.
